

Lesson 4

LO: to consider whether education is important within Islamic communities.

Read the 3 Hadith and Sunnah below:

It is necessary that all Muslims, both men and women, gain knowledge.

Allah makes the path to paradise easier for those who seek knowledge.

Some women said to Prophet Muhammed: Men have started to gain more knowledge than us. So choose a special day when we can gain knowledge as well.'

Prophet Muhammed chose a day for the women. He would meet them on that day to teach them about Allah's commandments and give them advice.

Can you role play each of them and perform for your family - can they guess which one you are performing?

Answer the questions in your book with a partner:

Do these pieces of guidance show that education is important in Islam?

After reading these pieces of guidance who do you think Muhammed wanted to have an education?

Discussion

 Convince me that these meanings are still important in the modern day?

Write your thoughts on a post-it!
